Franz Trumler Planning & Zoning Administrator met with the Board to discuss some Planning & Zoning issues.

1. Jerry Happ is using land for a salvage and trash yard. Jerry Happ is solely responsible for the hauling and dumping according to some of his family members. It was recommended that Mr. Happ bring in a dumpster to haul the salvage away. Franz Trumler will be monitoring the progress and the P&Z Commission made it clear there needs to be significant progress by the end of July.
2. Mr. Diessner is currently using land that is zoned Ag-1 as a salvage yard for a commercial business. Diessners explained at the P&Z meeting it is not used as a primary income, rather sells and/or trades old car parts to make money to pay his farming bills. The P&Z Commission recommended Diessners get an estimate of the land they need to rezone and more forward if they plan to keep the salvage yard.
3. Jeremy Straka hauled manure from a feedlot to his property to be stored. Hauling from a feedlot requires a Special Use Permit. He has been made aware that his actions of hauling from a feedlot require a Special Use Permit.
4. Jason Stam was notified to cease and desist the use of Grit on the property of Harley Hansen. Mr. Stam was made aware that he needs a Special Use Permit to apply this type of fertilizer. Because it was a first time offense, no action was taken.
5. Paul Bykerk was also using land for a salvage and trash yard. He was notified to clean up the area and has made progress.
6. Franz asked if the Board would like to implement a policy for non-profit organizations, he stated he would do a survey of surrounding counties to see if other counties charge non-profit organizations for permits or if they are exempt.
7. During this discussion it was brought up that complaints need to be written and signed for liability purposes. The Board feels it is not necessary for complaints to be in written form; they are glad to be made aware of problems and think it might deter people if the complaint has to be in written form.

A Resolution and Agreement of the Federal Funds Purchase Program was presented for the Board's consideration. The resolution and attached Federal-Aid Transportation Fund Purchase-Sale Agreement, provides for payment of federal funds to the county through the State of Nebraska. In an effort to eliminate some of the red tape and delay for both the State and Local entities in the use of Federal Aid funding, the State is proposing to pool the federal funds and distribute it to local entities, the State would retain 20% and the County would get 80%, funds cannot be used for gravel or fuel but can be used for things like road construction, low water crossing, bridge removal etc. and must be kept separate from other funds with a separate line item. When determining each county's proportional share, the number of rural residents (25%), number of rural motor vehicles registered in the county (25%) and number of centerline miles of classified rural road in the county (50%) is considered. The first payment will be made in March 2014 and based on money allocated in 2013, so the payment will always be paid a year behind. Motion made by Goldfish, second by Wrede to approve a Resolution and authorize the Board Chairman to sign the Federal-Aid Transportation Fund Purchase-Sale Agreement between Greeley County and Nebraska Department of Roads.
